Nitesh Kumar

Full-Stack Software Engineer

+91-8102897545 — niteshkumar02122003@gmail.com — linkedin.com/in/nitesh — github.com/nitesh680

Professional Summary

Detail-oriented Full-Stack Software Engineer with hands-on experience in designing, developing, deploying, and maintaining scalable web applications. Proficient in Java, Python, JavaScript, TypeScript, MERN Stack, and Spring Boot, with strong expertise in RESTful APIs, AWS cloud services, Docker, Postman API testing, Linux systems, and database management. Experienced in Artificial Intelligence, Large Language Models (LLMs), Model Context Protocol (MCP), and AI-driven automation systems. IEEE international conference paper presenter with strong analytical, communication, and collaboration skills.

Education

Bachelor of Technology in Computer Science and Engineering 2022 – 2026
Vignan University, Guntur, Andhra Pradesh
CGPA: 7.8

Senior Secondary (XII) 2019 – 2021
Loyola Convent School
Percentage: 84%

Technical Skills

Programming Languages: Java, Python, JavaScript, TypeScript

Frontend Technologies: HTML5, CSS3, React.js, Bootstrap

Backend Technologies: Node.js, Express.js, Spring Boot, Hibernate, JWT Authentication

Databases: MySQL, MongoDB, PostgreSQL

Cloud & DevOps: AWS (EC2), Docker, Docker Compose, Git, GitHub, GitHub Actions, Linux, Kali Linux

API & Testing Tools: RESTful APIs, Postman

AI & Machine Learning: Artificial Intelligence, Machine Learning, Natural Language Processing (NLP), Large Language Models (LLMs), Generative AI, Transformers, Prompt Engineering, RoBERTa, LSTM, BiGRU

Security: Network Security Fundamentals

Experience (Project-Based)

Full-Stack Software Engineer – Academic and Self Projects 2023 – Present

- Designed and developed full-stack web applications using the MERN Stack and Spring Boot.
- Built secure and scalable RESTful APIs and validated endpoints using Postman.
- Deployed backend services on AWS EC2 with proper cloud configuration.
- Containerized applications using Docker and managed multi-service deployments.
- Integrated AI workflows using Large Language Models and Model Context Protocol (MCP).
- Collaborated using Git and GitHub for version control and project management.

Projects

Complaint Management System (MERN Stack)

- Developed a scalable complaint tracking platform using MongoDB, Express.js, React.js, and Node.js.
- Implemented role-based access control and secure authentication mechanisms.
- Designed, tested, and documented RESTful APIs using Postman.
- Deployed backend services using Docker containers.

Agentic AI Automation System (Python, NLP, LLMs)

- Built intelligent automation pipelines using Python and Natural Language Processing.
- Integrated Large Language Models using Model Context Protocol (MCP).
- Applied prompt engineering for task orchestration and decision-making.
- Evaluated model performance using accuracy, precision, and recall metrics.

Banking Application (Java, Hibernate, JSP)

- Developed secure banking modules for account management and transactions.
- Ensured data integrity using ACID-compliant database operations.

Research Publication

A RoBERTa-Centric Hybrid Approach Using LSTM and BiGRU for Sentiment Analysis of Online Reviews
International Conference on Sustainable Communication Networks and Applications (ICSCN 2025)
IEEE Communications Society (ComSoc), October 2025
ISBN: 979-8-3315-9420-6

Certifications

- **Foundations of AI and Large Language Models** – E&ICT Academy, IIT Roorkee 2025
  - Gained a strong foundation in Artificial Intelligence and Large Language Models.
  - Worked with Transformer architectures, Generative AI, and prompt engineering.
  - Learned NLP pipelines, embeddings, fine-tuning concepts, and LLM workflows.
- Cisco Certified – Network Security Fundamentals 2024
- Python Certified – Essential Python 2024
- Cisco Certification in Networking and Cybersecurity Basics 2023

Soft Skills

Problem Solving, Critical Thinking, Clear Communication, Team Collaboration, Adaptability, Time Management, Ownership

Achievements

- Presented an IEEE research paper at an international conference (ICSCN 2025).
- Winner – Code Hunt Competition at VVIT.
- Solved 190+ Data Structures and Algorithms problems.
- Achieved a 2.5-star rating on CodeChef.

Extra-Curricular Activities

- Coordinator – Mahotsav 2k25.
- Coordinator – StackHack 2k25.
- Secured 4th position in the VCODE Hackathon 2k25.
